

PROFILE

Issued on January 1st, 2022

Since that date our company has successfully completed numerous installations throughout the Chinese mainland and abroad.

Our factory floor space exceeds 38,000 Sqr. meters and our 20 cranes provide us with the capability to handle and machine cylinders and components weighing up to 150,000kgs.

From conception to installation our engineers, factory staff and salesmen strive to ensure that our customers receive the very best in quality products and service.

Our manufacturing facility is capable of producing hydraulic cylinders up to the following dimensions:

Bore Diameter 3,000mm

Rod Diameter 2,500 mm

Stroke 20,000mm

The Typical Applications: Machine Manufacturing **Casting Cylinders** Mobile Hydraulics Press Manufacturing Hydroelectric Industry **Offshore Industry** Mining Industry Hydraulic Systems

FLUTEC Hydraulics source raw materials exclusively from the most reputable and quality approved suppliers in China such as (Chengdu Pangang, Xingcheng Special Steel, Hunan Valin Steel, Shanghai Baosteel, Jiangsu Shagang Steel etc.)

We at FLUTEC Hydraulics invite all customers to consider our facility for your next hydraulic project.
